## On Saturday, June 14th you'll receive a test message from our Emergency Mass Notification System

On the afternoon of **Saturday June 14th at 2:00 p.m. EST**, all Northbridge employees will receive a **test message** from our Emergency Mass Notification System.

This system is used to keep you informed in the event of any type of situation that impacts you, ranging from a snow storm that closes your office to a national disaster. We're testing it because keeping in touch with you in case of an emergency is critical, and we want to make sure you're getting the information you need when it's important.

If you haven't provided your emergency contact information, make sure you fill out this [form](#) by June 10th.

### What you can expect on June 14th

All employees that have provided their personal emergency contact information will be receiving a phone call on June 14th after 2 p.m. EST from a toll free number, which will begin with "Hello Northbridge employee..." If an email address was also provided in one's personal emergency contact information, those employees will receive an email as well.

To make sure everyone that's provided their contact details receives emergency messages, we'll be reaching out to you on June 16th and asking you to let us know if you didn't receive the test message.
