Installing the printer client

Installing the printer client

This one-time process will be completed for the majority of employees automatically. Should you have any issues, you can follow these steps to complete the process or contact the [IT Service Desk](#).

Step 1 Go to: <http://printers.nbfc.com>

Step 2 Click "Install Client" on the right hand corner of the screen.

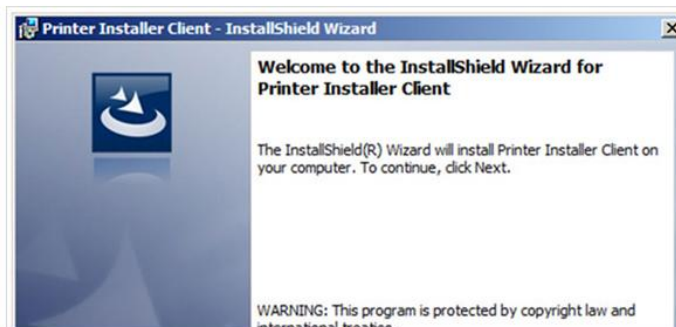

If you do not see "Install Client" on the right hand corner of the screen, then the Printer Client is already installed. Skip to [installing a printer](#).

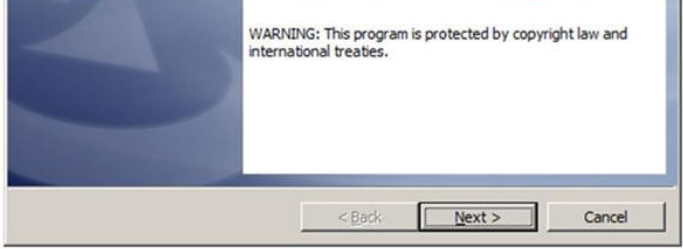

Step 3 Click on "Run" at the top or bottom of the web page

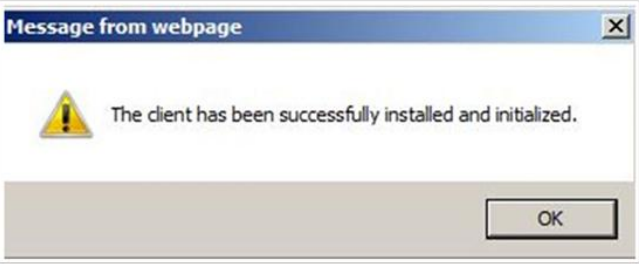

Step 4 The InstallShield wizard will appear. Click "Next".

- Step 5 Click "Install"
- Step 6 Click "Finish"
- Step 7 A message from the webpage will appear. Click "OK".

Step 8 The Printer Client is now installed and you can [install a printer](#).

Contact

If you have any issues, contact the IT Service Desk:

- From the office, dial: extension 6232
- If you're calling from home, the road or one of our remote offices, call: 1-866-383-5841
